INVENTÁRIO

A presente lista representa as 53 espécies de moluscos (Gastropoda) documentadas na Reserva Biológica de Pedra Talhada por ordem sistemática de **Família**, *Gênero* e *espécies*.

586

Helicinidae

Helicina cf. *rotundata* Wagner, 1910
Alcadia sp. 1

Megalomastomidae

Aperostoma cf. *blanchetiana* (Moricand, 1826)
Cyclopomops sp. 1

Diplommatinidae

Adelopoma sp. 1

Ampullariidae

Pomacea sp. 1

Veronicellidae

Sarasinula sp. 1
Sarasinula sp. 2
cf. *Sarasinula* sp. 3

Vertiginidae

Gastrocopta sp. 1
Pupisoma sp. 1
Pupisoma sp. 2

Bulimulidae

Rhinus velutinohipsidus (Moricand, 1836)
Drymaeus flexilabris (Pfeiffer, 1853)
Drymaeus cf. *poecilus* (d'Orbigny, 1837)
Oxychona bifasciata (Burrow, 1815)
Orthalicus prototypus Pilsbry, 1899
Entodina cf. *derbyi* (Ihering, 1912)
Biotocus turbinatus (Pfeiffer, 1845)

Amphibulimidae

Simpulopsis sp. 1
Simpulopsis sp. 2
Eudiptus cf. *citrinovitreus* (Moricand, 1836)

Ferussaciidae

Cecilioides cf. *consobrina* (d'Orbigny, 1841)

Subulinidae

Obeliscus cf. *carphodes* (Pfeiffer, 1852)
Lamellaxis sp. 1
Dysopeas sp. 1
Allopeas cf. *micra* (d'Orbigny, 1835)
Leptinaria cf. *unilamellata* (d'Orbigny, 1835)
Leptinaria sp. 1
Synapterpes sp. 1
Stenogyra cf. *octogyra* (Pfeiffer, 1856)

Streptaxidae

Streptartemon cookeanus (Baker, 1914)
Streptaxis subregularis (Pfeiffer, 1846)

Strophocheilidae

Strophocheilus calus Pilsbry, 1901

Megalobulimidae

Megalobulimus oliveirai (Bequaert, 1948)
Megalobulimus aff. *garbeanus* Leme, 1964

Systrophiidae

Scolodonta spirorbis (Deshayes, 1860)
Tamayoa banghaasi (Boettger in Thiele, 1927)
Happia sp. 1
Entodina sp. 1

Charopidae

Radiodiscus sp. 1
Radiodiscus sp. 2
Lilloiconcha superba (Thiele, 1927)
Lilloiconcha cf. *gordurasensis* (Thiele, 1927)
Radioconus amoenus (Thiele, 1927)
Charopidae sp. 1

Succineidae

Omalonyx cf. *unguis* (d'Orbigny, 1835)

Euconulidae

Pseudoguppya semenlini (Moricand, 1846)

Habroconus sp. 1

Habroconus sp. 2

Solaropsidae

Solaropsis pascalia (Caillaud, 1857)

Solaropsis cf. *pellisserpentis* (Chemnitz, 1795)

Psadara sp. 1

Helicinidae *Helicina* cf. *rotundata*
[10 mm]

Helicinidae *Alcudia* sp. 1
[4-5 mm]

Megalomastomidae *Aperostoma* cf. *blanchetiana* [25 mm]

Megalomastomidae *Cyclopomops*
sp. 1 [5 mm]

Diplommatinidae *Adelopoma* sp. 1
[2 mm]

Veronicellidae *Sarasinula* sp. 1

Bulimulidae *Rhinus velutinohipidus*
[20 mm]

Bulimulidae *Drymaeus flexilabris*
[30 mm]

Bulimulidae *Drymaeus* cf. *poecilus*
[40 mm]

Bulimulidae *Oxychona bifasciata*
[20 mm]

Amphibulimidae *Simpulopsis* sp. 1
[10 mm]

Amphibulimidae *Simpulopsis* sp. 2
[15 mm]

Ferussaciidae *Cecilioides* cf. *consobrina*
[3 mm]

Subulinidae *Obeliscus* cf. *carphodes*
[55 mm]

Subulinidae *Allopeas* cf. *micra* [10 mm]

Subulinidae *Leptinaria* cf. *unilamellata*
[13 mm]

Subulinidae *Leptinaria* sp. 1 [5 mm]

Subulinidae *Synapterpes* sp. 1 [15 mm]

590

Subulinidae *Stenogyra* cf. *octogyra*
[5 mm]

Streptaxidae *Streptaxis* *subregularis*
[20 mm]

Megalobulimidae *Megalobulimus*
oliveirai [83 mm]

Megalobulimidae *Megalobulimus* aff.
garbeanus [60 mm]

Systrophiidae *Scolodonta* *spirorbis*
[2 mm]

Systrophiidae *Tamayoa* *banghaasi*
[5 mm]

Systrophiidae *Happia* sp. 1 [1 mm]

Charopidae *Radiodiscus* sp. 1
[1,5 mm]

Charopidae *Radiodiscus* sp. 2 [1 mm]

Charopidae *Lilloiconcha* *superba*
[3,5 mm]

Charopidae *Lilloiconcha* cf. *gordura-*
sensis [2 mm]

Charopidae *Radioconus* *amoenus*
[2 mm]

Charopidae *Charopidae* sp. 1

Solaropsidae *Solariopsis* *pascalii*
[40 mm]

Solaropsidae *Psadara* sp. 1 [10 mm]
